

SAFETY TIPS

When you are walking

Use Pavements

Make sure you use the pavement or if there is no pavement, walk near the edge of the road facing oncoming traffic

Crossing roads

Always use pedestrian crossings such as overhead bridges, zebra crossings, subways, and pay attention to traffic signal lights

Don't use headphones

Avoid using headphones or cell phone while crossing the road as it causes distraction

Boarding a bus

Make sure you wait for the bus to halt completely while boarding or alighting from it

Crossing in front of vehicles

Avoid crossing roads in front of a stationary vehicle or in between stationary vehicles

Don't cross at road bends

Do not cross at road bends as visibility for the pedestrian and the driver is at its minimal

SAFETY TIPS

When you are cycling

Riding near cars

Ride within two metres of the rear of the motor vehicle to avoid collision and give hand signals in order to turn right, left or stop

Don't hold on to vehicles

Avoid holding onto another moving vehicle as sudden braking can injure you

Equip your bicycle

Equip bicycle with lights and with front, rear, and wheel reflectors to increase your visibility, especially during dusk and dawn

Use the bell

Frequently use the bell while riding in fog or in the dark to warn other motorists of your presence

Use mirrors

Always use side view mirrors to keep stock of vehicles approaching you from the rear

Cross on foot

Cross red-lights and railway level crossings on foot to stay better prepared for any on-coming traffic

SAFETY TIPS

When you are riding

Use a helmet

Use good quality helmets-preferably light coloured with reflector strips

Use daytime running lights

Use daytime running lights or DRL in the daytime to improve visibility and use low beam at night to avoid blinding oncoming traffic

Use side view mirrors

Use side view mirror to remain alert of traffic approaching from the rear

Do not follow a vehicle too close

Make sure you do not follow a vehicle too close in order to avoid collision. Use the 3 second rule

Do not drink and ride

Keep out of a car or vehicles blind spot

SAFETY TIPS

When you are commuting with a child

Riding with a child

Protect your child with child helmets on two wheelers and avoid having a child below the age of 15 as a pillion rider

No children in front seat

Children under the age of 12 years should not be allowed to sit in the front seat to prevent them from hitting the dashboard upon braking

Baby on board sign

Use signs like 'Child on Board' while travelling with a child in your vehicle

Traffic precaution

Children should not be allowed to mix with traffic without the company of an adult

Hold your child's hand while crossing

While crossing the road and near traffic, hold your child's hand to provide assistance

Do not leave the car on

Do not leave the car motor running while the child is in the car

SAFETY TIPS

When you are driving in fog

Drive with low beam

Drive with low beam to be able to see and be visible to other drivers

Reduce your speed

Reduce your speed to avoid crashing into stationary vehicles. Fog creates the illusion of slow motion when you may actually be speeding

Listen for traffic you cannot see

Avoid playing loud music and open your windows slightly to keep alert

Traffic precaution

Follow painted lane markings as a guide in case of zero-visibility and watch out for stationary vehicles

Never stop in the middle of the road

If your car stalls, switch on your blinkers and move to the side of the road

Using indicator before turning

Give at least ten seconds with the indicator on before making any turn to give drivers following you time to slow down due to slippery condition of road
