

PROJECT MANAGER, URBAN DESIGN FOR SAFETY

FULL TIME - NEW DELHI

ABOUT SVELIFE FOUNDATION

Globally, 1.25 million people are killed each year in road crashes. 90% of these fatalities occur in the developing world with India leading the global death toll with 150,000 deaths each year. SaveLIFE Foundation (SLF) is an independent, non-profit organization committed to improving road safety and access to emergency medical care across India and the developing world. SLF connects research, advocacy, communication and execution (RACE) to operate at the intersection of policy making and grassroots implementation for crash prevention as well as post-crash response. Over the past few years, SLF has facilitated the enactment of key legislations in India such as the Good Samaritan Law, adopted one of India's deadliest highways to transform it into a zero-fatality corridor, trained thousands of Police officers and volunteers in life-saving techniques and built award-winning technology to connect and assist stakeholders including bereaved families from extremely poor backgrounds.

BACKGROUND

SaveLIFE Foundation's success hinges on its highly dynamic team, which we are now expanding to scale our impact. We are looking for a full-time position, Project Manager with:

- Background in Urban Planning and Design.
- Experience of working on urban road infrastructure which can support multi-modal transportation and the principles behind ensuring road safety from a design perspective.
- Experience in management and implementation of on-ground projects.
- Passion to engage with a wide variety of stakeholders and invest at least 3 years to its mission.

ROLES & RESPONSIBILITIES

- Plan and implement design solutions in Cities and on Highways.
- Manage implementation of SaveLIFE Foundation's (SLF) on-ground projects with holistic perspective and detail-oriented perspectives including:

- Track progress of projects
- Coordinate with internal project teams and with partners across industry, NGO and Government
- Reporting on the project internally and externally
- Ensuring budgetary compliance

- Ensure that suggestions on design and engineering interventions are context-relevant, innovative and impactful.
- Keep abreast with the latest research on road safety design and innovative engineering interventions.
- Carry out any other duties and responsibilities as maybe assigned

DESIRED SKILLS AND QUALIFICATIONS

- Graduate/Post-Graduate degree in Planning or Architecture is required.
- Minimum 5 years' experience in urban planning and design projects.
- Candidates that have worked on projects with focus on pedestrian pathway design, pavement design etc. will be given preference.
- Strong Project Management Skills.
- Strong communication skills in Hindi and English a must.

COMPENSATION: Commensurate with experience and qualifications. Additionally, medical insurance and other benefits as per organization policy.

HOW TO APPLY: The interested candidate should send the following documents to careers@savelifefoundation.org. Mention the name of the position in the subject of the email. Send a copy of your resume and most importantly a cover letter expressing an interest in the role and with details of your current and expected annual CTC. Send us a copy of an article or report independently prepared by you in the last two years.
