

Job Title – BTLS and Road Safety Trainer

Experience – 2 - 5 yrs.

Location – Pune

Reports to – Assistant Manager (ER & Training Ops)

## CAREER OPPORTUNITY

SaveLIFE Foundation (SLF) is a non-profit organisation committed to saving lives on roads in India. We have been recognized as the *Best NGO in India* by the Rockefeller Foundation and are a recipient of the prestigious Prince Michael International Road Safety Award. We partner directly with the government, industry, and local communities across India to make the most dangerous roads safer.

Road crashes kill over 1.3 million people globally each year. India holds the dubious distinction of being world number one in road crash deaths, with at least 150,000 fatalities and over one million serious injuries per year. Most victims come from extremely poor backgrounds. Road crashes have emerged as the number one cause of death for Indians in the age-group of 15-45, dealing a crushing blow to the nation's productivity and a loss of 3% to our GDP each year - an amount that can eradicate hunger from India, twice over each year. Tragically, road crashes in India are also one of the biggest causes of death for children under age 14, with over twenty fatalities each day, mostly in the vicinity of schools.

SLF operates at the intersection of policy-making and grassroots impact. We are best known for getting India a Good Samaritan Law that encourages bystanders to help critically injured persons on the road, expected to save 50% lives otherwise lost to preventable injuries. Most recently, SLF has delivered an astounding **43% reduction in fatalities** on the Mumbai-Pune Expressway through a combination of measures ranging from improved road engineering to technology-driven traffic enforcement to optimized trauma response – the **Zero Fatality Corridor (ZFC) model**.
